

While we try our best to keep this table up to date, DAPRO recommends that you please check the information is correct against your notebook brand as it has been known that model specs can change between countries. All our adapter models are entirely configurable. If you can't find a suitable adapter for your notebook then email us the notebook brand, DC voltage and current and the type of connector and we can then customize an adapter at no extra cost.

For enquires please contact us at :-
